

FOR IMMEDIATE RELEASE

# ONSP Places Tuan Nguyen As Vice President of Engineering at ACCO Semiconductor

[Dallas, TX - September 2011] ON Search Partners is pleased to have contributed to the successful announcement of Tuan Nguyen as Vice President of Engineering by ACCO Semiconductor, Inc. ACCO is a privately-owned fables semiconductor company developing innovative CMOS RF solutions for the wireless industry. Headquartered in Sunnyvale, CA with a development team in Louveciennes, France, the company is developing ground-breaking wireless solutions that previously were not possible in CMOS technology.

“Nguyen will bring an unique and industry-specific Power Amp background to ACCO, along with an impressive record of success in taking complex ICs into high volume production,” said Brad Westveld, Partner at ON Search Partners.

Nguyen has over 25 years of experience in semiconductor product development for mobile handsets, broadband communication, digital consumer, and PC markets. Tuan was most recently the VP of Engineering at Amalfi Semiconductor, where he successfully delivered the world’s best Power Amps for cellular handsets in CMOS technology and took them to high volume production. Prior to Amalfi, Tuan served as VP of Engineering at TAEC and Artile Microsystems, as well as Oak Technology. Tuan holds a bachelor's degree in Electrical Engineering from Santa Clara University.

Additional information on ACCO can be found at [www.acco-semi.com](http://www.acco-semi.com).

## About ON Search Partners:

ON Search Partners is a global retained executive search firm that locates and lands the best CEO, Board and Vice President talent for technology, life sciences and cleantech growth companies.
